

## Hidden Legend Winery

### Spiced Honey Mead

Spiced Honey Mead has a special place in the history of many cultures. The coveted recipes were carefully guarded by honey mead makers who were members of the clergy. Our mead wine maker has taken this festive favorite and created a delightfully modern version that can be heated with a stick of cinnamon, poured over ice, with a sprig of mint, or enjoyed by itself. This honey wine complements turkey or pork, and is best served slightly chilled.

### Pure Honey Mead

Hidden Legend Pure Honey Mead is a tastefully contemporary version of man's oldest mead wine. Crafted in the style of a semi-dry table wine, it captures the flavor of honey without being too sweet. Enjoy it by itself or as a complement to dishes like grilled fish, roast pork, and spicy Asian or Mexican. Made exclusively from pure Montana honey. This honey mead is best served at room temperature or slightly chilled.

### Dark Honey Mead

Our dark honey mead is a direct descendant of our most popular mead wine, this robust yet semi-dry honey wine is made from a darkened honey that produces rich tones and clearly defined layers of flavor. Hidden Legend dark honey mead complements heartier meat dishes, wild game, rich ethnic meals, spicy foods, and chocolate. Best served either slightly chilled or at room temperature.

## Hidden Legend Winery

### Wild Chokecherry Mead

A wild cherry that grows prolifically throughout Montana, the Chokecherry got its name because it doesn't sweeten until after a frost. Montanans have used it for years to make their favorite syrup and jelly. This tradition, inspired our winemaker to marry this familiar flavor with local honey wine, and create a true Montana mead wine and the winner of our first gold medal. Serve slightly chilled.

### Huckleberry Mead

Purely seasonal, purely dependent on good berry years, and purely delightful. This fun loving mead wine appears in late fall but immediately transports honey wine lovers back to the very best days of summer. The unique flavor of native Montana huckleberries and honey wine makes it easy to remember that perfect afternoon on a favorite stream of mountain trail. Best served slightly chilled.

### Wild Elderberry Mead

This delicious elderberry honey wine has a subtle port-like quality that makes it perfect for sipping and for complementing your favorite chocolate or sharp cheese. Elderberry honey wine was said to be the favorite of Hippocrates (the father of medicine) and the early pioneers of Montana. Best served slightly chilled.

**The King's Mead**

Known in Greek Mythology as "necter of the gods," mead became the exclusive drink of royalty. Our King's Mead wine captures all the qualities that inspired centuries of poetry, legend, and song. This traditional honey mead is made in the style of the old world. It has a very smooth sweet honey flavor. You can enjoy this delightful honey wine on its own or with dessert.

**The King's Cyser**

With the advent of white sugar after 1500 AD, honey became scarce in Europe, so apples were added to the mead to stretch the honey. Cyser was born! Enjoy the rich traditional flavors of apples and honey in our King's Cyser honey wine.

**The King's Pyment**

With the advent of white sugar after 1500 AD, honey became scarce in Europe so grapes were added to the mead to stretch the honey. Pyment was born! Enjoy the rich traditional flavors of grape and honey in our King's Pyment.

## Hidden Legend Winery

### Maple Mead

Honey and Maple, Bees and Trees. Nature simply meant some things to go together. That's why we've blended 100% pure maple syrup with thick, smooth Montana honey. The result is a dark, enchanting flavor, with distinctive maple flourishes in the finish. Enjoy Hidden Legend Maple Mead wine by itself or experiment with meals.

### Peach Honey Mead

On a whim, we blended honey wine with peach - magic happened. Turns out we created an exceptionally mellow mead wine, with an easy-to-enjoy, forward fruit taste. But perhaps it's not surprising, since we use pure, rich, Montana honey wine and sweet delicate peach juice.

### Dandelion Wine

This is not your grandmother's dandelion wine, but it's pretty darn close. It's been approvingly described as "delicate" and "grassy" but we just think of it as summer on a back porch in Montana. Hidden Legend Dandelion Wine is best appreciated mid-afternoon, by itself, or with a very soft cheese.
